

SZG6330 portable led floodlight

Description of performances:

- **Safety and reliability**
 - 1) Double protection board lithium ion battery, the short circuit of battery does not catch fire and explode, absolutely safe and reliable.
 - 2) A rear yellow warning light to alert traffic
- **High efficiency and energy-saving**
The luminous flux reaches 1000 lm with high power led chip of CREE Company.
- **Waterproof resistance**
The shell adopts high strength engineering plastic and waterproof design. It can be used in various environmental conditions such as 1m height drop.
- **Electricity detection**
Intelligent 4-stage power display and low voltage warning design can check battery power at any time, when the power is insufficient, indicator stroboscopic prompt for charging.
- **Lightweight and durable**
It can be used by handheld, seat type and magnetic adsorption conveniently.

Product pictures:

Applications:

SZG6330 portable led floodlight has the characteristics of high brightness, adjustable angle of lamphead, long discharge time and magnetic adsorption. It is widely used in public security, army, electric power, power plant, railway, metallurgy and other industrial and mining enterprises as emergency lighting.

Main technical parameters:

Parameter items		Unit	SZG6330 portable led floodlight
Rated voltage of battery		V	11.1
Capacity of battery		mAh	5000
Lifespan of battery		cycle	1000
Continuous discharging time	Strong light	h	≥10
	Weak light		≥20
	Signal light		≥80
Charging time		h	≤8
Led power		W	12
Lifespan of led chip		h	50000
Magnetic adsorption			yes
Angle adjustment			yes
Rear warning light			yellow light
IP protection			IP66
Dimensions		mm	Φ260×170×150
Weight		g	2000
Accessory			charger
