

SZG7633 multifunctional led flashlight

Description of performances:

- **Safety and reliability**
Double protection board lithium ion battery, the short circuit of battery does not catch fire and explode, absolutely safe and reliable.
- **High efficiency and energy-saving**
The luminous flux can reach 350 lm with high power led chip of CREE Company.
- **Electricity detection**
Flashlight has electricity display device and can display remaining electricity and charging status.
- **Rapid focusing**
The lamphead adopts tensile focusing, which can easily realize the conversion of floodlight and spotlight to meet the needs of more users.
- **Lightweight and durable**
 - 1) telescopic lamphead to achieve convergence of spotlight and floodlight lighting
 - 2) Lamphead can rotate 90°
 - 3) It can be used as handheld and magnetic adsorption conveniently.

Product pictures:

Applications:

SZG7633 multifunctional led flashlight has the characteristics of high brightness, spotlight and floodlight modes, adjustable angle of lamphead, long discharge time and magnetic adsorption. It is widely used in public security, army, electric power, power plant, railway, metallurgy and other industrial and mining enterprises as emergency lighting.

Main technical parameters:

Parameter items		Unit	SZG7633 multifunctional led flashlight
Rated voltage of battery		V	3.7
Capacity of battery		mAh	2200
Lifespan of battery		cycle	1000
Continuous discharging time	Strong light	h	≥8
	Weak light		≥16
Charging time		h	≤8
Led power		W	3
Luminous flux of led chip		lm	350
Lifespan of led chip		h	50000
Range of lamp		m	≥300
Magnetic adsorption			yes
Angle adjustment			yes
IP protection			IP66
Dimensions		mm	Φ50×46×225
Weight		g	93
Accessory			Charger, stakerope
