

## SZG562 hawkeye solar led wall lamp

### Applications:

- Private villas
- Private residence
- Outdoor courtyard
- Public park
- Commercial street buildings
- Outer wall of shops
- Outer wall of historic buildings

### Description of performances:

Super brightness led chip

no construction cost

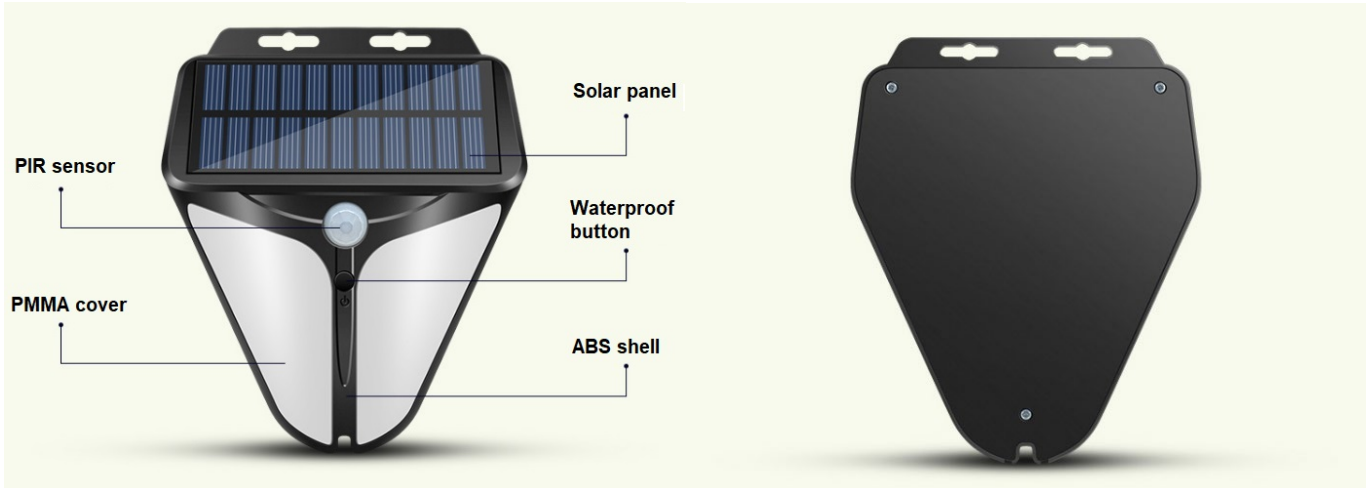

no installation material

zero electricity fee

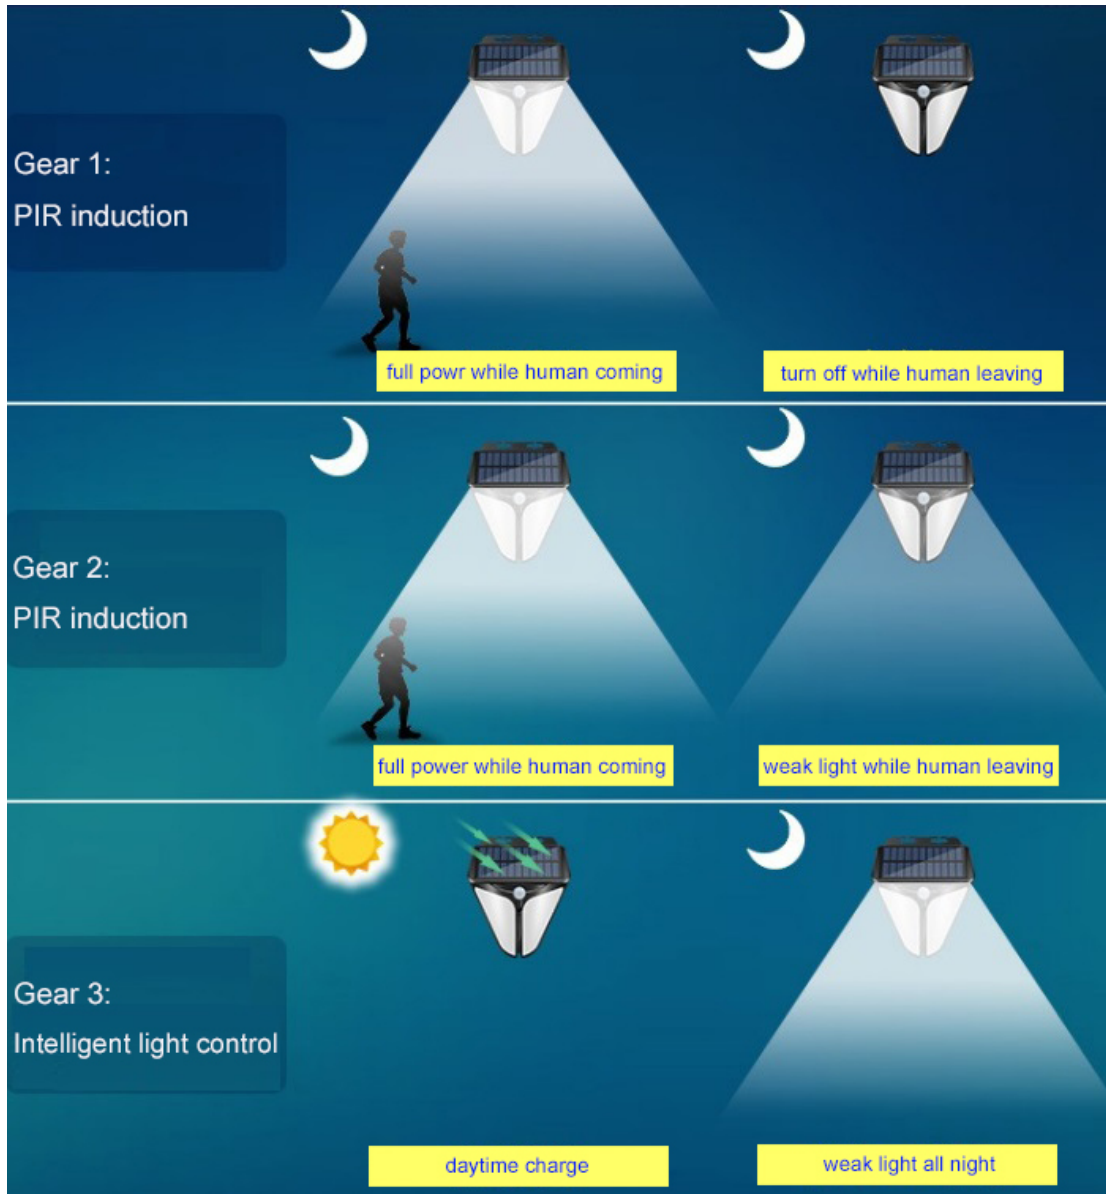

## Built-in power Li-ion battery

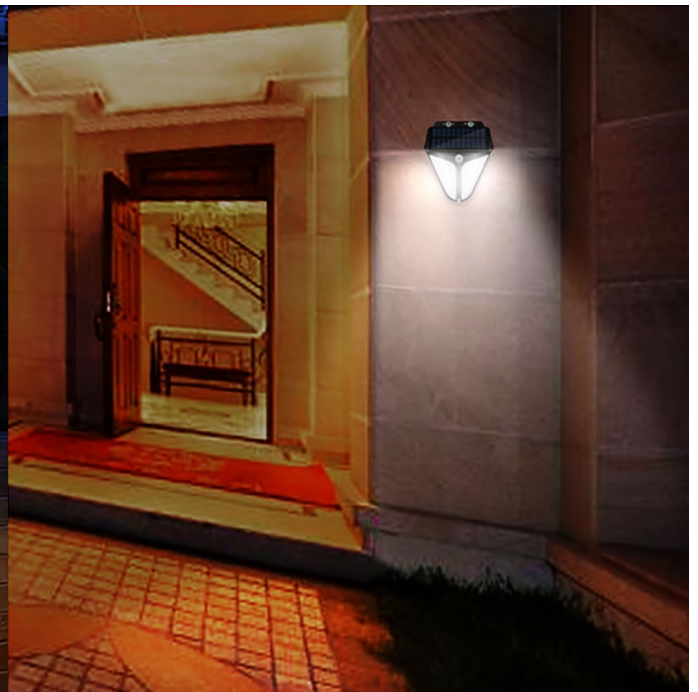

**Function modes:**

Application scene:

## Technical parameters:

Parameter items	2W
Led chips	0.2W SMD2835
Correlated color temperature (K)	6500K
Color rendering index (Ra)	75Ra
Output luminous flux	200 lm
Capacity of Li-ion battery	3.7V1500mAh
Power of poly solar panel	1W
Charging time	6~7 hours
Induction angle of PIR	120°
Induction distance of PIR	5 m
Shell material	ABS weather plastics
Cover material	PMMA
Discharging temperature	-20~+60℃
Charging temperature	-5~+55℃
IP protection	IP65
Product dimensions	108*128*40 mm
Net product	0.13 Kg
Package sizes	113*133*45 mm
Gross product	0.15 Kg
Carton sizes	480*470*290 mm
Quantity per carton	60 pcs
Warranty	1 year
