

SZG563 solar flame led wall lamp

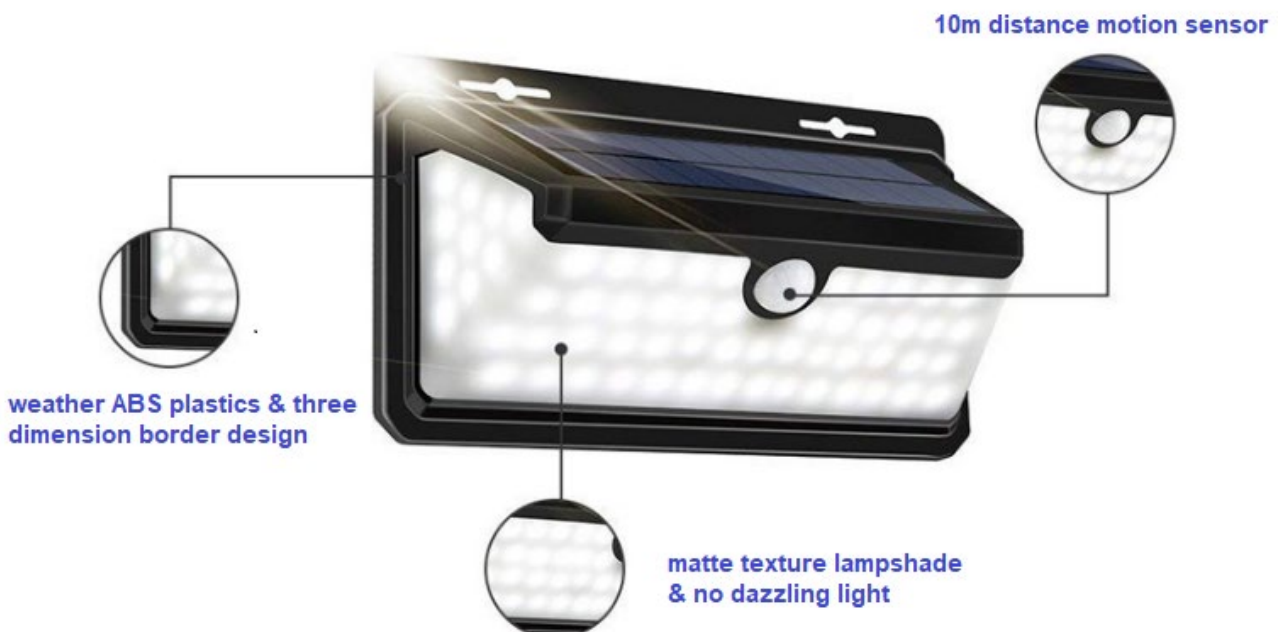

Applications:

- Private villas
- Private residence
- Outdoor courtyard
- Public park
- Commercial street buildings
- Outer wall of shops
- Outer wall of historic buildings

Description of performances:

Super brightness led chip

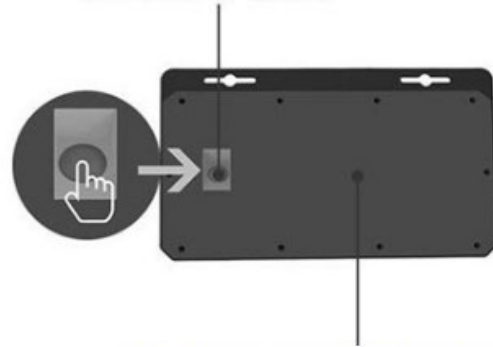

waterproof & heat resistance solar panel

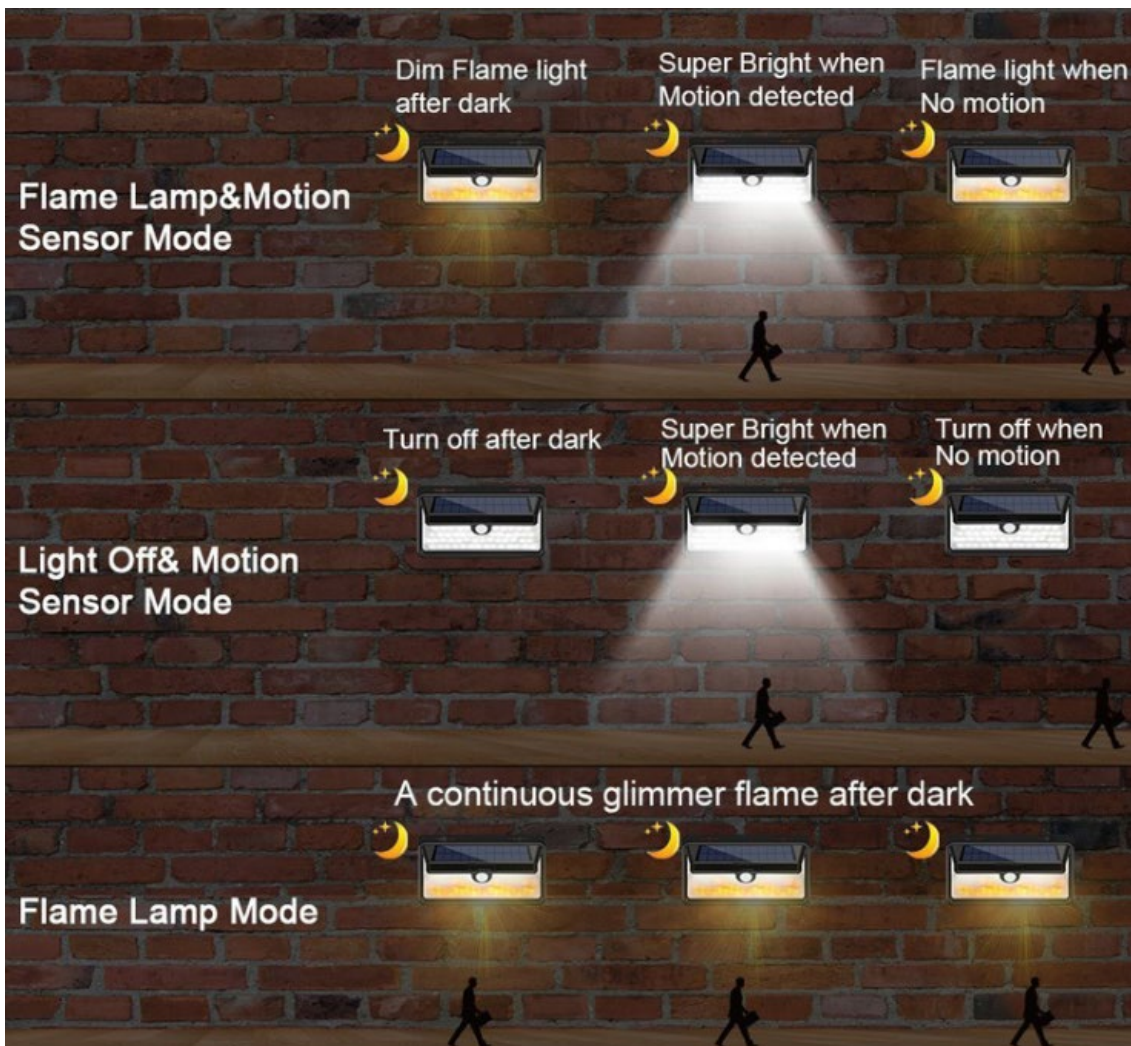

soft silicon button

built-in 4500mAh Li-ion battery

Function modes:

Application scene:

no construction cost

no installation material

zero electricity fee

Perfect and reliable use in various weather

IP65 waterproof

Heat resistance

Frost resistance

Technical parameters:

Parameter items	5W
Led chips	0.2W SMD2835
Correlated color temperature (K)	6500K
Color rendering index (Ra)	75Ra
Output luminous flux	500 lm
Capacity of Li-ion battery	3.7V4400mAh
Power of poly solar panel	2.5W
Charging time	6~7 hours
Induction angle of PIR	120°
Induction distance of PIR	5~10 m
Shell material	ABS weather plastics
Cover material	PC
Discharging temperature	-20~+60℃
Charging temperature	-5~+55℃
IP protection	IP65
Product dimensions	258*146*95 mm
Net product	0.45 Kg
Package sizes	264*153*98 mm
Gross product	0.59 Kg
Carton sizes	540*470*310 mm
Quantity per carton	18 pcs
Warranty	1 year
